# International offshore drilling contractor needed a global partner

Global company Vantage Drilling explains how TMF Group has helped them to expand successfully.

## Client profile

Vantage Drilling is an international offshore drilling contractor which operates a fleet of modern, high specification drilling rigs on a worldwide basis.

Since its inception in 2007, the company has built an experienced and dynamic team of personnel from across the globe to support its worldwide drilling operations. TMF Group is delighted to have been able to team up with Vantage from its early days and be a part of its global growth and expansion. Vantage is listed on the NYSE MKT Stock Exchange.

## How TMF Group helped

The cooperation between Vantage and TMF Group started in our Hungary office, as we assisted with the company set up and still provide management, domiciliation and accounting services. Shortly afterwards our assistance expanded to our Dutch offices and from there our relationship grew even further, with introductions being made to our offices in Luxembourg, Malaysia, Singapore, Brazil, and Poland.

Vantage's Global Tax Director Linda Ibrahim said: "TMF Group and its personnel have been an indispensable asset to us in our global expansion."

General Counsel for Vantage Mark Howell added: "Through their knowledge and dedication to providing the highest level of service in each of the markets they serve, TMF Group has made a significant contribution to the establishment of our presence in Europe and Asia."

TMF Group's Director of Client Services Myrthe Görtzen said: "Vantage is an excellent example of an international structuring client for whom we service multiple companies across the globe. We are the business partner for clients internationally holding single assets and our excellent cooperation with Vantage proves that. It has been a great pleasure working with Vantage's dynamic team. They are extremely busy organising their global business and we have made sure that we are merely a phone call away wherever and whenever they need us."

## In the future

We aim to help Vantage to accomplish their global strategy by supporting their mission:

- to own a fleet of world class rigs with premier offshore drilling performances
- to build one of the most experienced and dynamic teams in the industry with an unsurpassed safety performance
- to exceed customer's expectations and delivering an excellent operational performance.

Vantage plans to continue to grow through strategic acquisitions of assets. As their global business partner, we are committed to helping them make this happen.

*"Through their knowledge and dedication to providing the highest level of service in each of the markets they serve, TMF Group has made a significant contribution to the establishment of our presence in Europe and Asia"*

Mark Howell,  
General Counsel for  
Vantage Drilling
